

Your Councilman Wants to Make It Easier to Displace Thousands of Low-Income People From Their Homes

The North Westlake Design Ordinance will:

-  Re-Zone Temple, Beverly Blvd, 3rd St., and Alvarado enticing developers to buy out RSO buildings resulting in displacing residents.
-  Allow developers to build over-priced market rate units that current residents cannot afford (Gentrification).
-  Eliminate parking requirements for new small businesses forcing customers to park on side-streets making it harder for residents to find parking.
-  Create man-made canyons of large buildings along our major roads (urban canyons).
-  Burden our small businesses by forcing them to spend \$1000's of dollars each updating their signage.
-  Allow developers to destroy the cultural heritages and identities that are the foundations of the diversity we all enjoy.

We need to tell Mitch O'Farrell this is not acceptable!

Community Meeting
Jan. 17th 6:30pm
Pilipino Workers Center
153 Glendale Blvd, Los Angeles, CA 90026
NoDesignDistrict@gmail.com
